1 **Values and Vision Committee** For: 0 Against: 0 Final Recommendation: None

### Qualifications

#### Chelmsford Resident

Applicant: Please accept my interest in the Resident Position for the Values and Vision Committee.

Having been part of business leadership, over a 20+ year career, I have had the opportunity to create and execute Vision, Mission, and Corporate Value statements on several occasions, providing real world experience for this position. I also serve on the Recycling and Energy Conservation Committees affording me the opportunity to understand how town committees operate. But, more importantly I am not only a resident, I am the husband of a long-time Chelmsford School Teacher and father to 3 young kids in the Chelmsford Public Schools.

A position on this committee will allow me the opportunity to help shape the Values and Vision of the Town for the next generation. I have also learned over the last year, serving on the Recycling and Energy Committees, the importance of civic service at the local level. I

think this needs to be promoted and a part of the vision and values of our community going forward.

But, it's not just civic service I feel is important, there other critical elements I believe are required. We have to be a community that places importance on education, community-based business advocacy, sustainability and environmental leadership, providing the highest level of public safety for people and property, and being fiscally responsible as to not mortgage the future for the next generation. All of this should be done in a community that values differences and diversity, engages in healthy debate, respects the experience and knowledge of the prior generation, and is open to and listening to the needs, ideas, and growing experience of today's generation.

I look forward to the opportunity of serving and working with our community on this committee.

Aaron
