Follow Up Flag: Follow up
Flag Status: Flagged

All,

Below is a summary of the air quality testing status to date. The testing sites were chosen based on an analysis conducted by the consultant and the complaints that were received by the Board of Health. We should be receiving the final report in about three weeks.

Please contact me if you have any questions.

Regards,

Steve Maffetone
Interim Assistant Town Manager
Director Emergency Management

Subject: Chelmsford Air Quality Testing Update

Hi Steve,

My name is David Thibault and I am an engineer at GZA and have been working with Sam Despins and Ken Boivin on the Air Quality Testing project. I was asked to give you a summary of my recent activity in Chelmsford and an update on the status of the report and data. Please see below.

Sampling Activities:

9/16/2020 – Conducted air quality sampling on Ledge Road.

9/17/2020 – Conducted air quality sampling at the Scotty Hollow Condominiums.

9/18/2020 – Conducted air quality sampling on Lovett Lane.

9/21/2020 – Conducted air quality sampling at the Chelmsford Woods Condominiums.

9/22/2020 – Conducted air quality sampling at the Chelmsford Commons Manufactured Home Community, specifically on New Yorker Ave.

9/23/2020 – Conducted air quality sampling on Lady Slipper Lane.

9/24/2020 – Conducted air quality sampling on Chamberlain Road.

All sampling events took place from approximately 0700 – 1600.

We expect to receive analytical results from our lab partner sometime early next week and would expect to have a completed report to the Town within 3 weeks of receiving that data. Our report for the Town of Westford is expected to be completed by the end of next week.

Please reach out to Sam or I if you have any questions or concerns.

Thank you,
David

David Thibault
