Committee Applying For: Clean Energy & Sustainability	
Amount of Time Available: lots- just retired	
Relevant Experience: Just retired from 43-yr career in environmental/energy/civil engineering consulting business in Massachusetts and New York. Broad experience in infrastructure work including funding and technical projects in climate solutions- carbon reduction programs, renewable energy projects (solar, wind, hydro), building energy efficiency programs, transportation carbon reduction, coastal and inland waterway resiliency, etc. Have industry contacts who may be of help to Chelmsford's plans. Chelmsford resident for 39 years (24 Fenwick Rd).	
Education or Special Training: BS Civil Engineering, UMASS Amherst MS Environmental Engineering, UMASS Many climate adaptation workshops sponsored by Boston area environmental and civil engineering trade associations regarding climate impact & solutions- both the science and technology and also government programs at local, state and federal level.	
Previous Committee Positions Held: None in Chelmsford. Joined Tree Committee, and have time to be productive on another Town committee.  Past experience on several committees and boards in the environmental/energy field.  Team player- happy to lead or follow, whatever is needed to reach the goal.	
Remarks: Just retired and excited to remain active in this field and give back to our great Town.  Bern Kosicki encouraged me to apply after we met through another organization.  My philosophy is simple- we all use natural resources and with some creative thought, we can build infrastructure we need, including energy, while minimizing negative impacts on our pocket books and the environment.
